

MELLOTT®

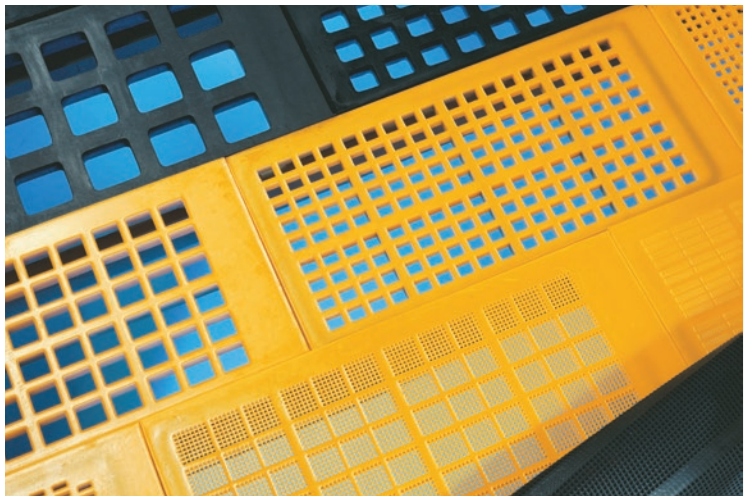

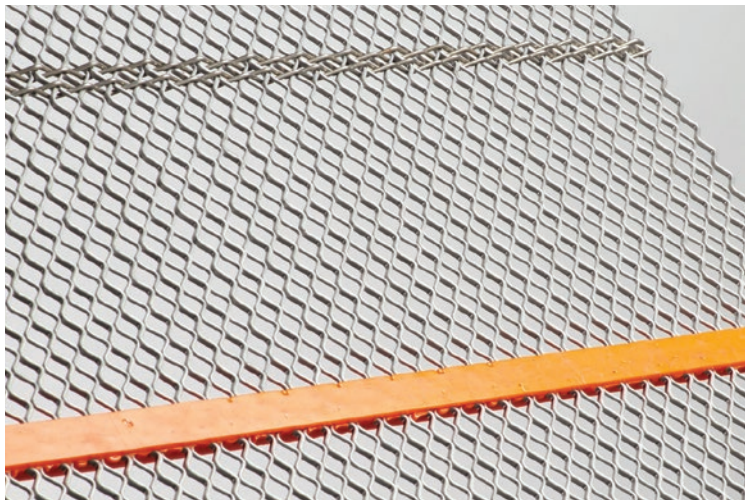

Screen Media & Wears

Protecting you, your equipment, and the environment.

Helping You with Compliance & Profitability.

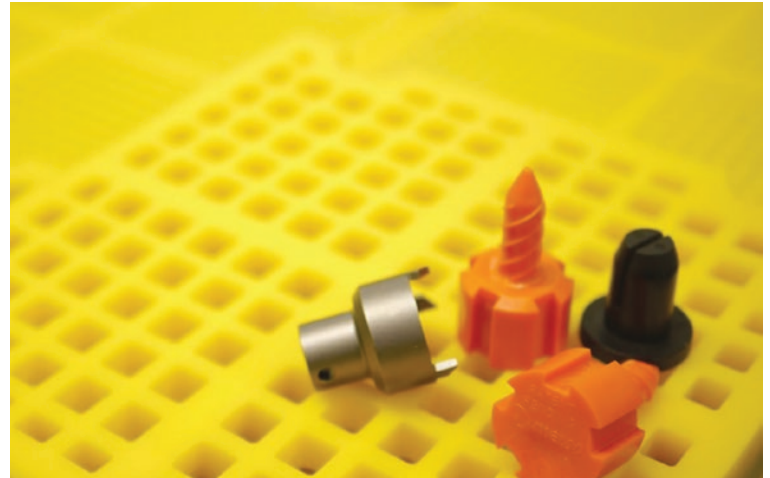

Material handling is tough business. Mellott has created a business unit that addresses the specific challenges of abrasion, wear and environmental responsibility.

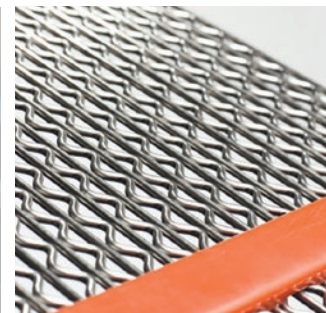

SCREEN MEDIA

Screen Media to Keep Your Plant Producing

With over 100 years of experience and industry knowledge, Mellott can supply you with the optimal solution to your screening needs for the lowest total cost. We offer a complete range of opening, wire diameter, metal and weave types enabling Mellott to provide you with the right products for your applications.

- ▶ On-site analysis to ensure best application
- ▶ Knowledgeable local representation
- ▶ Stocking and blanket agreements
- ▶ Specialty screen media designed and developed for your application

WEAR PROTECTION

Mellott has some of the best modular systems in the industry. We offer polyurethane, rubber and ceramic wear protection built to fit your specific application. Custom Lining options to protect your investment and decrease your down time while increasing your safety.

Products Mellott Offers

- ▶ Classifier shoes
- ▶ Mixer liners
- ▶ Sheet stock
- ▶ Lined pipe
- ▶ Pump liners and related parts
- ▶ Chute liners/
crossmember protection
 - Replaces special
Application Lining
- ▶ Rubber Feed Cone Liners
 - 1 & 2 piece options for
5.5 & 7 Ft. Symons
 - Noise Reduction
 - Extended wear life (Seeing double the
wear life compared to the steel)

Mellott Offers UHMW Products for the Following Applications:

- ▶ Coal, slurry
- ▶ Power plants
- ▶ Rail cars
- ▶ Cement plants
- ▶ Lignite coal
- ▶ Aggregate
- ▶ Sand & gravel
- ▶ Slag & steel mills
- ▶ Recycling

RUBBER BED LINERS

Bed Liners for All Applications

Rubber Truck Bed Liners

Protecting the bed of your haul truck is a sure way to reduce operating costs in lieu of conventional steel plate. Rubber truck bed liners can add up to three times longer life in most applications. Rubber absorbs impact causing less stress and wear on the truck and the operator. Rubber also reduces noise levels 10-15 db during loading. We offer solutions for rigid frame or articulated haulers.

Reduce...

- ▶ Operating costs –
Modular system decreases maintenance time
- ▶ Haul back
- ▶ Re-lines
- ▶ Liner changes
- ▶ Noise by up to 50%
- ▶ Felt vibration by up to 97%

LIGHTWEIGHT TRUCK BODIES

Haul More with Less

- ▶ Maximize payload
- ▶ Increase uptime
- ▶ Lower fuel consumption / reduced carbon footprint
- ▶ Less maintenance
- ▶ Improved work environment

MANGANESE

For All Your Crushing Needs

Mellott's team of Applications Engineers have decades of experience and are armed with the latest technology to determine the right liner profile and metallurgy to suit your operation.

Once we've determined the best profile for your equipment, we offer options for OEM and aftermarket manganese wear liners to fit most major makes and models of crushing equipment including:

- ▶ Metso
- ▶ Eagle Crusher
- ▶ Lippmann
- ▶ Superior
- ▶ Cedarapids
- ▶ JCI / KPI
- ▶ Telsmith
- ▶ Sandvik
- ▶ Pegson
- ▶ Extec
- ▶ And More.

Our vast inventory of mantles, bowl liners, jaw dies, concaves, blow bars, anvils, shoes and more are available in 11-14%, 18% and 22% alloys. Save Money and improve uptime with Mellott's Full Container Load Program.

BACKING MATERIAL

Environmentally friendly, easy and safe to use, Mellott's EcoBack Backing Material is the future of safer backing and trouble-free shipping:

- ▶ No corrosives
- ▶ Easier to use – safer mixing
- ▶ Readily shipped by ground or air
 - No "hazardous" goods charges
- ▶ Can be shipped with other crusher parts
- ▶ Meets DOT/EU non-hazardous requirements
- ▶ Recyclable plastic pails
- ▶ Meets today's workplace safety concerns

- ▶ Long wear
- ▶ Improved performance
- ▶ Lower costs in crushing operations

COST SAVINGS PROGRAMS

Full Container Load Program

Streamline your operation and secure a steady supply of high-quality manganese wear products with Mellott's Full Container Load (FCL) Program.

Benefits

- ▶ Secure your manganese needs for the entire year
- ▶ Availability when you need it—reduces downtime
- ▶ Cost savings—lower price per unit and savings on shipping costs
- ▶ Protection against market fluctuations
- ▶ Consistency and reliability

- ▶ Tailored solutions for your site
 - Flexible solutions to create custom mix of parts
- ▶ Complete product support and backing from Mellott's expert team

Component Exchange Program (CXP)

Mellott is your partner in success to maximize up-time! Our Component Exchange Program is a cost and time effective way to manage planned and unplanned repairs or maintenance.

- ▶ Purchase an OEM reconditioned component at a lower cost
- ▶ Huge inventory of spare and wear parts
- ▶ Meet production goals
- ▶ Core credit in exchange for inoperative core

How Does It Work?

1. You have a part that needs replacement.
2. You buy our CXP Part.
3. We ship the CXP part to you and you ship your old part to us. Customer pays freight for purchased component.
4. We evaluate the part you sent in and provide you a core credit. Returned freight is paid by customer or can be deducted from your core credit.

Benefits

- ▶ Lower cost
- ▶ Reduced downtime
- ▶ Genuine OEM parts
- ▶ Service Assistance
- ▶ Technical expertise
- ▶ Complete assemblies
- ▶ OEM Specifications

SERVICE

For You and the Environment

Mellott Has Expanded Our Service Offering to Include:

- ▶ Plant optimization
- ▶ Plant Flow to maximize performance
- ▶ In Depth Plant reviews and inspections
- ▶ Vibration Analysis
- ▶ Sound Suppression
- ▶ Air Quality Control
- ▶ Thermographic Testing

- ▶ Noise/Decibel Level Testing
- ▶ Dust Suppression Solutions
- ▶ Spray Urethane
- ▶ And More.

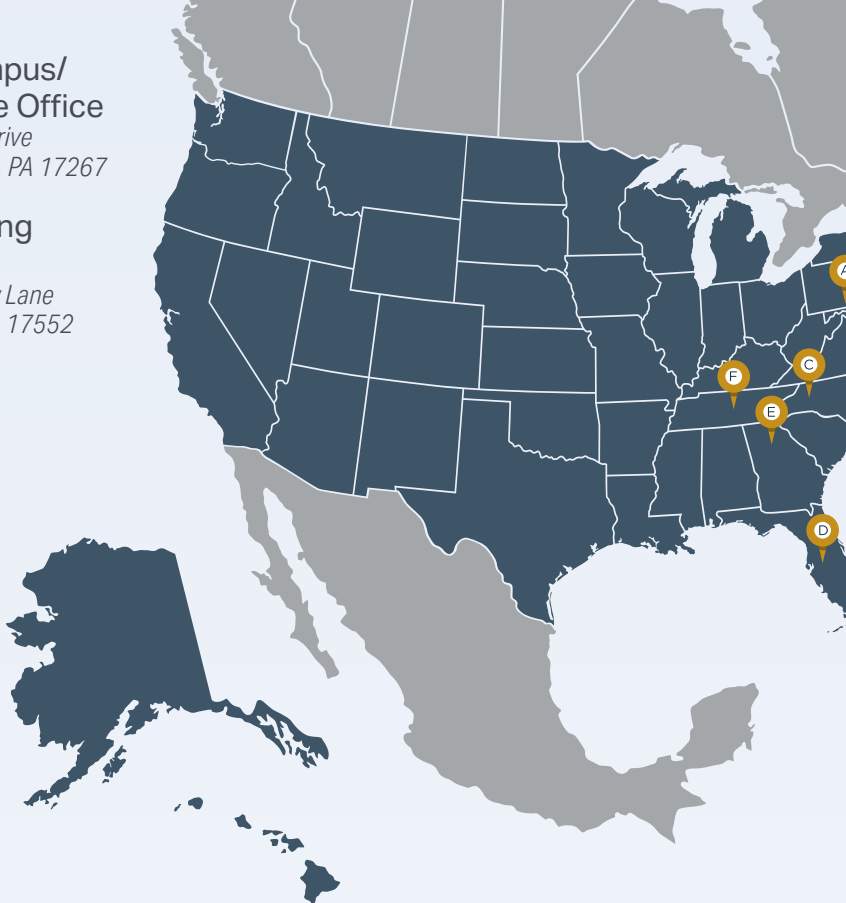

Our team of experienced applications engineers have decades of experience and can perform in depth testing and analysis to optimize your plant at your location. We will provide care, precision, and attention to detail that differentiates us from the competition.
